

Testimonial

Youness Ghanim, SOMC ID 23056480 has been employed at Sony Mobile Communications in Lund, Sweden since December 2007. He is leaving our company because of shortage of work. His last working day in System Applications Department was August 2015.

Positions:

2007 – 2015 Staff Software Engineer (Sony Ericsson / Sony Mobile).

Description of assignment:

Youness was employed at Sony Mobile as a Software Engineer and has since worked on many things within the company. He started with our OSE platform at the graphics department where his contribution was significant for the development and success of our in-house Flash Lite and Capuchin technologies. In that regard Youness exceeded expectations. Later he joined the android platform and worked with the team which introduced left to right languages (LTR) to the platform. He contributed into software development, testing and UI verification for RTL products. Later, Youness joined Settings, Lock-Screen and Home-Screen teams. In all teams he had the responsibility to actively participate in coding, monitoring the defect management system and stabilization of new features and legacy code. He built up experience in the software development tools in use at Sony Mobile, in the way of working according to Scrum in the teams. Youness has also experience in collaborating with off-shore teams.

During his career Youness has also supported quality management, and specific notice of turning quality perspectives into cost estimates is noteworthy.

Youness Ghanim has with great accuracy and interest performed his tasks. We have been more than pleased with Youness, who was personable and with excellent cooperation skills. We would therefore like to give him our best recommendations.

Jörn Green

Manager System Applications
